

Terms of use for the website nistotoolkit.eu and its subpages

Status: 25 January 2016

Legal disclaimer

This disclaimer shall govern your use of our website. By using our website, you accept this disclaimer in full; accordingly, if you disagree with this disclaimer or any part of this disclaimer, you must not use our website.

The Belgian law is applicable to this disclaimer and website. In case of a dispute, only the courts of the Brussels district are authorized.

Limitation of liability for internal content

The content of our website has been compiled with meticulous care and to the best of our knowledge. However, we cannot assume any liability for the up-to-dateness, completeness or accuracy of any of the pages.

We as service providers are not liable for the evaluation results generated by the NISTO Toolkit or any following consequences.

Limitation of liability for external links

Our website contains links to the websites of third parties ("external links"). As the content of these websites is not under our control, we cannot assume any liability for such external content. In all cases, the provider of information of the linked websites is liable for the content and accuracy of the information provided. At the point in time when the links were placed, no infringements of the law were recognisable to us. As soon as an infringement of the law becomes known to us, we will immediately remove the link in question.

Copyright

The content and works published on this website are governed by the copyright laws of Belgium. Any duplication, processing, distribution or any form of utilisation beyond the scope of copyright law shall require the prior written consent of the author or authors in question.

Any publication of evaluation results generated by the NISTO Toolkit needs to state the NISTO Toolkit as the source of the evaluation results.

Data protection

A visit to our website can result in the storage on our server of information about the access (date, time, page accessed). This does not represent any analysis of personal data (e.g., name, address or e-mail address). If personal data are collected, this only occurs – to the extent possible – with the prior consent of the user of the website. Any forwarding of the data to third parties without the express consent of the user shall not take place.

We would like to expressly point out that the transmission of data via the Internet (e.g., by e-mail) can offer security vulnerabilities. It is therefore impossible to safeguard the data completely against access by third parties. We cannot assume any liability for damages arising as a result of such security vulnerabilities.

The use by third parties of all published contact details for the purpose of advertising is expressly excluded. We reserve the right to take legal steps in the case of the unsolicited sending of advertising information; e.g., by means of spam mail.
